

Tai Tarian Budgeting Sheet

Budgeting is all about knowing and having control over how much income you have, what your outgoings are, and making sure your outgoings are not higher than your income. Using a budget sheet is a good way of controlling your money.

The Tai Tarian’s Financial Inclusion Team has come up with this budgeting sheet to help you, our tenants, get a firm understanding of your household income and outgoings.

Please complete this budgeting sheet, sticking to weekly, fortnightly or monthly calculations for each box.

Once you have completed the income and outgoing sections, you will then need to deduct the total expenditure amount in **box B** from the total income amount in **box A** (on page 3). This will leave you with the amount of money you have left to spend each week or month to clear any debts or save for special occasions.

If you need any further help on how to complete your budget sheet, or you are experiencing financial difficulties, please contact the Tai Tarian’s Financial Inclusion Team on 01639 506623.
